

PRESENTATION OF REAL ESTATE OBJECTS THROUGH WEB-MAPPING SERVICES

This Add-On provides you with the ability to view the location of real-estate objects through web-mapping services embedded in your master data. In addition, the deliverables of the Add-On include a function for the facilitation of opening an external browser session.

YOUR BENEFITS BY USING THIS ADD-ON

- Automatic redirection without having to search for the address
- Optimized real estate view of master data
- Built-in web-mapping service
- Automatic address validation
- Variety of web-map providers
